

Rose Hill Wash Committee Report – November 13, 2025

On October 7, 2025 Bogardus Engineering presented a preliminary report to Elizabeth Eberbach (Leibold), City of Tucson Floodplain Manager. She has requested minor revisions, which Tracy Bogardus planned to make and present to Elizabeth. (Note: The report title is *Drainage Statement: Dorado Country Club Estates/Rose Hill Wash Remediation.*)

There has been no further communication from Bogardus Engineering or Elizabeth Eberbach.

Viki Trask and George Hill walked the wash Oct 16 with Darrin Meisterhans from the City to get suggestions on appropriate actions. He says permits will be required for basically any actions, but also said we can probably get the permit fees waived.

The committee will meet once Bogardus Engineering provides a revised plan signed off by Elizabeth.

Sand bags are available for any resident. Email me if interested at strasbourggeo@gmail.com. Sediment from the wash can be used to fill them.

Respectfully submitted,

George Hill, Chair
