

Landscape Committee Report February 14, 2025

The committee met once in January.

Tucson Water will notify the Master Association when backflow testing is due. Please contact the Landscape Committee when it arrives. Last year, the testing was due in the spring.

There is a dying pine tree at the West Entrance. The committee will contact tree service companies to obtain quotes for tree removal.

Joe is working with City of Tucson Code Enforcement regarding weeds on the HSL lot.

The committee has completed its review of irrigation quotes for the West Entrance and recommends that the board move forward with the quote from The Drip Doctor. See the Master Landscape Committee Proposal to the Directors – West Entrance Irrigation.

Respectfully submitted,

Joe Wilkinson and Debbie Hill, Landscape Committee Co-Chairs
