

November 2025 Perimeter Walls Committee Report

Two bids were submitted for flower bed repairs at the east entrance and the installation of two bollards. The bids were discussed at the November EOC meeting and D.E.A.'S Handyman Service was selected. To save costs, I will paint the flower bed myself.

All work except painting was completed on November 13th.

After purchasing paint, total expenses—including flower bed repairs, bollard installation and refurbishment, curb striping with reflective beads, and marking "Private Property No Trespassing" on the north side of the north wall—are estimated at \$2,900.00 to \$3,000.00.

Respectfully submitted,

Robyn S Pittman, Committee member
